# MARC TREMBLAY

*Results-driven Game Programmer and Software Developer seeking a challenging development role. Proven track record of collaborating within interdisciplinary teams to deliver innovative projects, with experience in C++, C#, Unity, and proprietary engines.*

## WORK EXPERIENCE

### Software Engineer | 2021 – 2023

IUGO Mobile Entertainment | Remote, Canada

- Followed reproduction steps to diagnose and fix bugs
- Collaborated with cross-functional teams to implement new features
- Participated in code reviews to ensure the highest quality standards
- Refactored game code to integrate the latest SDK updates
- Assessed feature designs to plan tasks and estimate time requirements

### Game Programmer | 2020 – 2021

Red Meat Games | Oshawa, ON & Remote

- Collaborated with team members to develop mobile game prototypes
- Optimized game systems, significantly improving performance
- Identified and resolved complex bugs

### Teaching Assistant | 2019, 2020

University of Ontario Institute of Technology | Oshawa, ON

- Provided guidance and support to students during lab exercises
- Proctored midterm tests and diligently graded tests, labs, and exercises

### Game Programmer (Internship) | 2017, 2018

Red Meat Games, Blot Interactive | Kitchener, ON

- Collaborated with team members to identify and resolve bugs
- Optimized game systems to meet PSVR performance requirements
- Integrated Steamworks API, adding Steam and multiplayer functionality
